

ON-THE-JOB TRAINING

Each class climaxes when the teams go out on actual witnessing calls, which we call Connect Activities, under the guidance of a trainer. Trainers not only serve as role-models for their trainees, but also provide guidance and a safety net for the trainees so that they may become more and more confident each time they share.

Jesus' expectation of His followers was that they would seek to connect with those around them, and He modeled for them how to do that. Firstly, He approached and connected with people. Then, He took those people with Him so that they could learn from Him. And finally, as modeled in Luke 10, He sent them out to do what He had shown them. This is the essence of the Connect Activity.

Equipping TODAY'S GENERATION With The Gospel

What is Xee?

Xee is an entirely fresh, innovative and exciting new product of the Evangelism Explosion equipping ministry. It was primarily designed to reach those of Generation X and younger. Generation X-ers are those born in the mid 60's to 1980 making them roughly in the age group of 30 to late 40's. However, Xee has also been found to be preferred and enjoyed by other generations as well. Through Xee, believers can be equipped to step out of their comfort zone, find common ground with their peers, and share the Gospel clearly and effectively.

Xee aims to not only serve as a tool for witnessing, but to also bring about a life-change of making witnessing a way-of-life, and to train others to do so. Xee is very relational in its teaching and learning, and in its approach towards unbelievers. It makes witnessing not only unthreatening, but even enjoyable and something to look forward to.

HIGHLIGHTS

SIMPLE PRESENTATION

The Gospel presentation is simple, discussion-oriented and "story-driven". It is presented in a very casual manner with room for discussion, which creates an openness in the listener. Each gospel point is shared with an illustration to build interest and to bring the point across clearer.

HIGHLY INTERACTIVE

Xee is not taught in a lecture format, but is highly interactive throughout its training, which comprises of DVD viewing, small group discussions and role-plays. Many people enjoy dialoguing through issues and ideas, and putting concepts into their own words and sharing them with others help them learn better.

EASY PREPARATION

As the primary material and training are presented in DVD form, not much preparation is required. The leaders will serve as "facilitators" using the DVD as their guide.
